

Microsoft® Windows/286 Special Rebate Offer

Congratulations on purchasing an AST® expanded memory board. We think you've made a smart choice.

Your new expanded memory board breaks the 640K barrier of DOS, letting you run larger programs than before. Now that you have this powerful capability, why not take full advantage of it with Microsoft Windows/286 version 2.1?

Microsoft Windows/286 lets you work with multiple programs simultaneously. With the added memory provided by your AST expanded memory board, those programs can be larger, and you can use more of them at the same time. In addition, Microsoft Windows/286 features a graphics-based user interface that's simple to learn and use and lets you exchange text and graphics among applications easily. Microsoft Windows/286 makes you more productive without more effort.

\$10 off Microsoft Windows/286!

Because we think your AST expanded memory board and Microsoft Windows/286 make such a great combination, we're offering you a \$10 rebate* on Microsoft Windows/286 version 2.1.

To take advantage of this offer, send us this coupon, along with a photocopy of your dated Microsoft Windows/286 sales receipt, a photocopy of your dated AST expanded memory board receipt, and your completed Microsoft Windows/286 registration card. This offer is good only for AST expanded memory boards and Microsoft Windows/286 purchased from May 1, 1988, through October 31, 1988.

Make another smart choice—get Microsoft Windows/286 today and let it take your AST expanded memory board to its fullest potential.

** \$10 rebate refers to both U.S. and Canadian currencies.*
