Problem

FILE FULL Message when trying to add the 31st stock.

Solution

Go to the security entry part of the program and delete the 31st ticker that you just added. Then add a ticker XXX, dividend rate Ø.ØØ, X-date ØØ/ØØ/ØØ, current price Ø.ØØØ, PE Ratio Ø.ØØ, S & P index Ø.ØØ. After entering this dummy ticker you should continue as usual.
