Problem

The program does not indicate a need to reorder stock even though the item is still under the reorder point.

Solution

The problem is corrected by following the steps listed below.

1. Backup the diskette(s) and make the changes on the Backup copy of the program.
2. In BASIC load the program by typing LOAD"ICS".
3. Make the following corrections:

CHANGES (Retype the line or refer to the Edit section of the owners manual)

Old Line: 3450 GOSUB1790:IFLEFT$(IV$,LEN(IX$))<>IX$ORIQ%>IR%OR
    I0%<>0THENRETURNELSEGOSUB1780:GOSUB3800:RETURN

New Line: 3450 GOSUB1790:IFLEFT$(IV$,LEN(IX$))<>IX$ORIQ%>IR%OR
    IR%<(I0%+IQ%)THENRETURNELSEGOSUB1780:GOSUB3800:RETURN

4. Type SAVE"ICS" to save the changes in the program.
5. At TRSDOS Ready, make a backup copy of the corrected diskette.
