CUSTOMER SERVICE BULLETIN

Problem

When printing a Bill of Materials or a Pull Sheet, an error occurs if the number of raw materials in the finished good is evenly divisible by 63 (i.e. 63,126,189 etc.).

Solution

The problem is corrected by following the steps listed below.

1. Backup the diskette(s) and make the changes on the Backup copy of the program.
2. In BASIC load the program by typing LOAD"REPORT1".
3. Make the following corrections:

```
NEW LINES (Type the lines followed by an <ENTER>)
1182 IFZT=ØTHENFORY=ØTOØ:GOTO122Ø
2172 IFZT=ØTHEN219Ø
```

4. Type SAVE"REPORT1" to save the changes in the program.
5. At TRSDOS Ready, make a backup copy of the corrected diskette.
