CUSTOMER SERVICE BULLETIN   NO.   1635-02

0058*8904*5
ESTES TOM
ESTES MUSIC EVANGLSM
PO BOX 1087
KINGSVILLE TX 78364

Description	PROFILE 4 PLUS
Model	4 V. 01.00.01
Stock No.	260-1635
Date	JAN 16, 1986

***** PURPOSE *****

Our records indicate that you are the registered owner of
PROFILE 4 PLUS. Please be sure that the version number referenced matches
your software. Several problems have been identified in this version. When
deleting records, multiple deletions may occur. Also, while in Inquire,
Update, and Add, pressing a number to go to another screen will return to
TRSDOS Ready. And, using SHIFT @ does not copy all 255 characters from one
record to another while in the ADD mode. To correct these items, make the
modifications to your software detailed in the PROCEDURE section (below) as
soon as possible.

* * THESE PATCHES ARE REQUIRED * *

***** DISCUSSION *****

We at Tandy Corporation recognize the importance of quality
control in our software products and this Customer Service Bulletin is one
part of our commitment to a program of software quality assurance.

The modifications required will be accomplished by the
series of PATCHES listed in the PROCEDURE section. If you are unfamilar with
"PATCHING" your software, please refer to your computer OWNER'S MANUAL for
help.

After making these PATCHES your software will be upgraded
to VERSION 01.00.02. Be sure to mark this version in your SOFTWARE VERSION
LOG. (If your software package does not contain a Software Version Log, ask
for one at your Radio Shack Computer Center, Radio Shack Plus Computer Center,
or Participating Radio Shack Dealer.)

You may continue to use the 01.00.01 version of PROFILE 4
PLUS; however, please be aware that only the most current version of this
software will be supported by Radio Shack personnel.

Please check the front and back of all your software
manuals and be sure that all SOFTWARE REGISTRATION CARDS have been mailed to
us. This will ensure that you receive notifications about required changes to
other packages you own.

Letters will come direct to you when patches or changes are
REQUIRED. Other, OPTIONAL patches or changes may be available for your
software. Contact your local Radio Shack store for further information about
possible optional patches.
