Bulletin No.	4502-4
Description	Inventory Management
Model	Model II
Stock No.	26-4502 Version 1.1
Date	June 18, 1980
Page 1 of	2

Problem

If a customer goes into the Review/Edit Inventory Items and changes the stock number, the vendor number is sometimes changed to either zero or 201. The problem can be corrected by re-editing the vendor number back to what it should be and making the changes listed below.

Solution

The problem is corrected by following the steps listed below.

Version 1.0

1. Backup the diskette(s) and make the changes on the Backup copy of the program.
2. In BASIC load the program by typing LOAD"RETINV".
3. Make the following corrections:

CHANGES (Retype the line or refer to the Edit section of the owners manual)

Old Line: 2310 PUT1,I(I,0):GOSUB1040:IFKF<>0THENKF=0:N1=I:N2=I(I,0):
I(I,0)=-I(I,0):ND=ND+1:GOSUB3140:NI=NI-1

New Line: 2310 PUT1,I(I,0):GOSUB1040:IFKF<>0THENKF=0:N1=I:N2=I(I,0):
I(I,0)=-I(I,0):VN=I(I,1):ND=ND+1:GOSUB3140:NI=NI-1

4. Type SAVE"RETINV" to save the changes in the program.
5. At TRSDOS Ready, make a backup copy of the corrected diskette.
