Description	<u>Inventory Management</u>
Model	<u>Model II</u>
Stock No.	<u>26-4502 Version 1.1</u>
Date	<u>July 25, 1980</u>
Page 1 of	<u>1</u>

### Problem

Some problems have been found in the Inventory Management Review/Edit Section. When an item is searched for that is not in stock, an item is displayed with a Ø vendor. Then a previous is done and that item is displayed correctly, but if it is edited an RN Error in 234 occurs.

### Solution

The problem is corrected by following the steps listed below.

1. Backup the diskette(s) and make the changes on the Backup copy of the program.
2. In BASIC load the program by typing LOAD"IMS/BAS".
3. Make the following corrections:

CHANGES (Retype the line or refer to the Edit section of the owners manual)

Old Line: 182 .....;GOSUB482:GOTO184

New Line: 182 .....;GOSUB482: IFI>NRTHENGOSUB372:RETURN

4. Type SAVE"IMS/BAS" to save the changes in the program.
5. At TRSDOS Ready, make a backup copy of the corrected diskette.
