Problem

After applying patches for backspace distance, 1Ø/12 pitch, and slash zero for use with the DWP41Ø, the slash zero print feature does not work. The backspace routine during slashing of zeros fails to consider backspace distance.

* *   THE FOLLOWING PATCHES ARE REQUIRED!   * *

Solution

Apply the following patch to correct the backspace routine.

PATCH SCRIPSIT/SYS R=158 B=34 F=Ø6Ø8CD14F8 C=ØØØØCDE8F7

Apply the following patch to change the version number.

PATCH STARTUP A=E3Ø1 F=2Ø C=31

After patches from this Bulletin have been applied, the version number will be Ø2.Ø1.Ø1. Please make the necessary entry in your Version Log.
