Problem

Necessary cosmetic changes to error messages and prompts within the program, use of pause and clear with data entry screens, subscreen data entry, the use of 3 and 4 alternate keys on Indexed Sequential files, and corrections to error messages when defining the length of report lines were incorporated in 700-2040.

* * THE FOLLOWING CHANGE IS REQUIRED! * *

Solution

A bulletin was issued to customers advising them of the 700-2040 upgrade. The new version number after the 700-2040 upgrade is applied is 01.01.00. This bulletin is being issued for your information.
